

<odesi> is an intuitive data portal for researchers, teachers and students; inspiring, developing and supporting research excellence.

The product of a unique partnership between university libraries, business, and government, ODESI improves access to data for researchers, teachers, and students.

How does <odesi> support your research?

Comprehensive

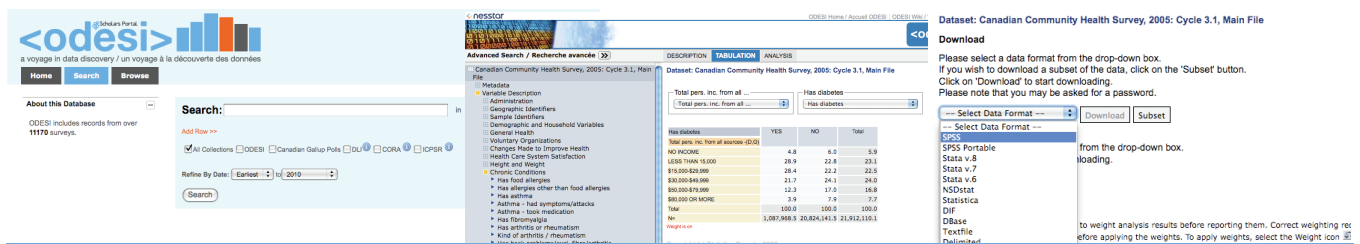

One-stop access to data from Statistics Canada, Gallup Canada, Ipsos Reid, and more.

Powerful

Search across surveys at the variable level, with multiple options for refining results.

Versatile

View summary statistics, create tabulations, graph your results online, and export to your desktop.

The screenshot shows the ODESI interface for the 'Canadian Community Health Survey, 2005: Cycle 3.1, Main File'. It includes a search bar, a list of variables on the left, a central tabulation table, and a download panel on the right.

Has diabetes	YES	NO	Total
Total pers. inc. from all	4.8	6.0	5.9
NO INCOME	28.9	22.8	23.1
LESS THAN 10,000	28.4	22.2	22.5
10,000-50,000	21.7	24.1	24.0
50,000-99,999	12.3	17.0	16.8
100,000 OR MORE	3.9	7.9	7.7
Total	100.0	100.0	100.0
N=	1,087,968.0	23,824,441.0	21,932,110.1
