

# Current Projects

## Dataverse at Scholars Portal

Scholars Portal is currently involved in several development and upgrade projects to bring the latest data management and sharing features to our research community.

Here is an overview of some current projects and links for more information about technical implementation and timelines for release.

[Archivematica Integration](#)

[Internationalization Project](#)

[Core TrustSeal Gap Analysis](#)

[CANARIE project \(2019-2020\)](#)

In addition to the projects listed above, Scholars Portal has developed several external tools that can be used with Dataverse to enhance certain features:

[Data Explorer](#) (Version 1 & 2.0)

[Data Curation Tool](#)

[Metrics Web Report](#)
