### [File Previewers now available in Scholars Portal Dataverse](#)

[Kaitlin Newson](#) posted on Jul 27, 2020

The Scholars Portal Dataverse team is happy to announce that the Dataverse File Previewers tool has been installed and enabled for Scholars Portal Dataverse users. This new tool will allow users to view certain file types, like images and audio/video files, directly in their web browser without needing to download the file. Files that are restricted will not be able to be previewed unless the user has permissions to download the file in the system....

### [CANARIE project completion: Dataverse for the Canadian Research Community](#)

[Meghan Goodchild](#) posted on May 14, 2020

The Scholars Portal Dataverse team is pleased to announce the completion of the development project "Dataverse for the Canadian Research Community," funded by CANARIE's program <https://www.canarie.ca/rdm-funding-call-recipients/> for Research Data Management software tools. The 18-month project involved innovative development of the Dataverse platform to better support Canadian researchers around data deposit and sharing with national and international collaborations.
