

# Expertise

This section lists the hardware, software tools, metadata formats, and content types that institutions are using.

## Experts list

Add your name and what you've worked with (to the point of feeling comfortable to share your experiences with others!). We love experts.

Name	Institution	Experience In...
<a href="#">Jeremy Heil</a>	Queen's University	Archivematica, AtoM, Digitization Planning, OpenRefine, digital forensics
Kelli Babcock	University of Toronto	digitization work flow for archives; metadata schemas, xsl; currently working with AtoM/Islandora/Omeka
