

TRAC2 4.4.1.1

4.4.1.1 - The repository shall preserve the Content Information of AIPs.

Introduction

The Content Information component of the SP AIP is preserved according to the [Preservation Strategic Plan](#) and [Preservation Implementation Plan](#). The Content Information is preserved, along with information documenting any transformations or actions taken on the AIP. The original, Provider-supplied Content Information is never deleted and the preservation metadata will always contain a reference to its location within the repository.

Responsibility

Digital Preservation Policy Librarian
