- Platform updates
    - Archivematica
    - AtoM
    - Dataverse
    - DSpace
    - Fedora
    - Islandora
    - Omeka
- Project ARC/Portage
- Around the table

Notes

- Summit
    - Things are going well!
    - Theme: Lessons learned and failing well
    - Have a potential keynote
    - Looking for proposals still – deadline September 15 (Reminder sent to the list - please forward it along - encourage colleagues to submit proposals)
- OLRC
    - Getting very close to moving to production
    - Lots of testing over the summer – testing matrix
    - Concurrent upload test happened on August 31, 2015
    - Will determine if we need to do additional tests
    - Bulk uploader - https://github.com/OLRC/SwiftBulkUploader
    - SLO uploader - https://github.com/OLRC/SwiftSLOUploader
- 2016 Budget asks
    - We'll put together a proposal around Open Access journals preservation (Stephen Marks' email to the list)
- Platform updates
    - Archivematica
        - 1.4.1 is out (bug fixes)
        - Dataverse integration
        - Object storage integration (upload to OLRC!)
        - Upcoming development - https://wiki.archivematica.org/Development_roadmap:_Archivematica#Archivematica_1.5.0
    - Atom
        - Development roadmap - what will be included in 2.3 - https://wiki.accesstomemory.org/Releases/Roadmap
        - 2.3 is coming out shortly
    - Dataverse
        - No major updates
    - DSpace
        - Laurentian updating their old version
            - Persistent id issues – solved with ngix rewrites
            - Contributed French translation of 5.2 UI back up
    - Fedora

- 4.3.0 release: http://duraspace.org/node/2642
- Call for participation: F4 Asynchronous Storage (HINT HINT – OLRC!): https://groups.google.com/forum/#!searchin/fedora-tech/Call$20for$20participation$3A$20F4$20Asynchronous$20Storage/fedora-tech/RnihEwIltO0/D_6ytC8rAwAJ
  - Islandora
    - Contributor License agreements: http://islandora.ca/content/islandora-contributor-licence-agreements
    - Community sprint! http://islandora.ca/content/islandora-community-sprint-001
    - 7.x-1.6 release: http://islandora.ca/content/call-7x-16-release-team-volunteers-we-want-you-our-team
    - Islandora Conference: http://islandora.ca/content/goodbye-islandoracon-you-were-awesome
  - Omeka
    - No updates
- Project ARC/Portage
  - No updates
- Round-table
  - Stephen Marks: Started preliminary work on accessioning and preserving email (using epadd)
    - Email appraisal, ingest, etc. - ePADD - https://library.stanford.edu/projects/epadd

Action Items

- [ ] Stephen Marks to send out updated email around Open Access preservation
