By web:

<https://ocul.zoom.us/j/773593971>

Or call:

+1 647 558 0588

Meeting ID: 773 593 971

## Discussion items

Time	Item	Who	Notes
5min	Welcome /Introductions	Bridget Whittle	
	Canopus project update	Steve Marks	<ul style="list-style-type: none"><li>• Working on the development on new DAMS at UofT Canopus - it is now in production!<ul style="list-style-type: none"><li>◦ One of our issues has been lots of different platforms and keeping track of all of it and think/plan/address in a uniform way, tried to centralize, but there were always technical issues - scaling, suitability - Moved towards a DAMS model</li></ul></li><li>• Steve gave a demo of Canopus DAMS, showing the interface and discussed some of the reasoning behind the technical decisions</li><li>• The DAMS is controlled by a series of APIs that do various tasks including retrieval, renaming, etc. If you need to pull all files from a collection, you can retrieve via identifier etc. through the API and show location etc.</li><li>• The DAMS has enabled an analysis dashboard in kibana that provides counts of files, size, breakdown of types</li><li>• This has been developed with Scholars Portal because it is a problem facing the whole OCUL community</li></ul>
5min	Goings-on at Scholars Portal	Grant Hurley	<ul style="list-style-type: none"><li>• Permafrost - <a href="https://permafrost.scholarsportal.info">permafrost.scholarsportal.info</a> if you have questions or are interested</li><li>• Working on integrating dataverse and archivematica into production with core code in 1.9<ul style="list-style-type: none"><li>◦ they are hosting an archivematica sandbox to test out - documentation <a href="https://spotdocs.scholarsportal.info/display/DAT/Archivematica+Demo+Sandbox">https://spotdocs.scholarsportal.info/display/DAT/Archivematica+Demo+Sandbox</a></li><li>◦ Grant gave a quick demo of sandbox - would love feedback, use cases, etc.</li></ul></li><li>• Digital Preservation Management Workshops will be happening at Ryerson, registration some point later in June</li><li>• Integration with duracloud - mgmt layer to work with LOCKSS and OLRC</li><li>• Working on TDR for journals migrating to markdown format to make it easier to edit and manage</li></ul>
2min	Call for New Moderator	Bridget	<ul style="list-style-type: none"><li>• 2 year term</li><li>• Welcome and add new members</li><li>• Arrange community calls (somewhere between 2-4 a year)</li><li>• Write yearly report to the OCUL board</li></ul>
